

APPLICATION FOR PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA SED 1.0 1968

Date of filing in State Engineer's Office
Returned to applicant for correction
Corrected application filed
The applicant Marion H. Smyth Creek
of Apt.9-Leisure World-Walnut / , County of Contra Costa ,
State of California, 94529, hereby make S application for permission to appropriate the public
waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorpora-
tion; if a copartnership or association, give names of members.)
· · · · · · · · · · · · · · · · · · ·
well
1. The source of the proposed appropriation is underground well Name of stream, lake or other source.
2. The amount of water applied for is 1.0 c.f.s. second-feet One second-foot equals 448.83 gals, per min.
(a) If stored in reservoir give number of acre-feetacre-feet
3. The water to be used for irrigation and domestic Irrigation, power, mining, manufacturing, domestic, or other use.
4. If use is for:
(a) Irrigation (state number of acres to be irrigated) 38.16 acres
(b) Stockwater (state number and kinds of animals to be watered)
(c) Other use (describe fully under "No. 11. Remarks")
(d) Power:
(1) Horsepower developed
(2) Point of return of water to stream
5. The water is to be diverted from its source at the following point: Lot 1, Section 10, T.32N.,
R.44E., M.D.B.&M., at a point from which the N ¹ / ₄ corner of said
Section 10 bears N. 41° 11' E. 70.0 feet it should be stated.
6. Place of use Lot 1 of Section 10, T.32N., R.44E., M.D.B.&M. Describe by legal subdivision, if on unsurveyed land it should be so stated.
7. Use will begin about January 1 and end about December 31, of each year. Month
8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans
and specifications of your diversion or storage works.) Drill 10 x 172' well, install
diesel engine and 6" deep well turbine, construct ditches & latera. State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits.
for Irrigation

11. Remarks Land acquired by Desert Land Entry Applicant Marion H. Smyth By S/ Mark Chilton Agent Comparitive is dc/jb By S/ Mark Chilton Agent Approval Of State Engineer This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to following limitations and conditions: This permit is issued subject to all existing rights on the source. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level at perwittee's well due to any other ground water devel ment in the area. A substantial weit or other type of measuring device must be installed and measurements of water use kept. The well shall be equipped with a 2-inch opening for measuring depth to water. If well is flowing, a valve must be installed and maintained to prevent waste. The State retains the right to regula the wase of the water herein granted at any and all times. The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, not to exceed. 1.0 cubic feet per second , but not to exceed a year duty of 4.0 acre-feet per acre of land irrigated from any and/or all sources. Actual construction work shall begin on or before. July 20, 1969
